SUMMARY

Equity research professional with four years of buy-side and sell-side experience across U.S., Hong Kong, and China-listed companies. Experienced in bottom-up company and industry research, financial forecasting, DCF valuation, investment writing, and engagement with management teams and institutional investors. Combines finance expertise with Python/SQL automation and machine learning experience, with a strong interest in long-term, bottom-up investing.

EQUITY RESEARCH EXPERIENCE

Haitong International Securities — Equity Research Analyst, Equity Research Department
Shanghai | Sep 2022 – Nov 2025

- Conducted bottom-up research on U.S., Hong Kong, and China-listed consumer companies, including Coca-Cola, Monster Beverage, Nongfu Spring, Yili, Mengniu Dairy, and China Feihe; produced initiation reports, earnings updates, and industry deep dives.
- Built financial forecasts and DCF valuation models; evaluated growth drivers, channel strategies, competitive positioning, and key risks; and developed buy/sell recommendations.
- Delivered tailored market insights to institutional clients including J.P. Morgan, Citadel, and T. Rowe Price; presented investment ideas through roadshows and client meetings.
- Worked directly with CFOs and investor relations teams and facilitated investor-management meetings to deepen primary research and improve information flow.
- Built Python and SQL workflows for data extraction, cleaning, regression analysis, and chart generation, reducing recurring processing from approximately two hours to 10 minutes; customized open-source tools to analyze unstructured financial reports.

Guide Investment (归德投资) — Buy-Side Equity Research Analyst
Shanghai | Nov 2021 – Sep 2022

- Researched Microsoft, Roche, leading Chinese dairy companies, and residential energy-storage company Pylon Technologies, assessing business evolution, product portfolios, governance, industry structure, and competitive dynamics.
- Compared operating models and strategic positioning across companies and synthesized financial and industry evidence into investment research.

ADDITIONAL TECHNICAL & PRODUCT EXPERIENCE

TikTok — Machine Learning Engineer Intern, Core Recommendation Algorithm Team
San Jose, CA | Apr 2026 – Jul 2026

- Contributed to a Large Recommendation Model project and validated scaling from 100M to 3B parameters, observing up to a 3.8% AUC lift; benchmarked Transformer, TokenMixer, and MLPMixer backbones and studied long-sequence modeling with Stacked Target Cross Attention.

Meituan — Product Manager, Community Group-Buying
Shanghai | Jul 2021 – Nov 2021

- Improved customer-service and after-sales workflows using Python/SQL analysis; translated findings into product requirements and coordinated delivery with engineering and operations.

SELECTED PROJECT

Jianwei Daily (见微日读) — Independent Developer
Sep 2026

- Designed and launched a WeChat Mini Program providing daily macro and asset-class analysis, personalized feeds, and searchable archives covering U.S., A-share, and Hong Kong equities and commodities.
