WEILI XIAO

Cupertino, CA | +1 408-769-9834 | willa_xiao@163.com | L-2 Work Authorized; No Sponsorship Required

PROFESSIONAL PROFILE

Equity research and investment professional with four years of buy-side and sell-side experience covering U.S., Hong Kong, and China-listed companies. Develops bottom-up investment views through financial statement analysis, forecasting, DCF valuation, industry research, and engagement with management teams and institutional investors. Combines rigorous finance training with Python/SQL automation, statistics, and graduate computer science coursework.

PROFESSIONAL EXPERIENCE

Haitong International Securities | Equity Research Analyst, Equity Research Department *Shanghai | Sep 2022 – Nov 2025*

- Conducted bottom-up research on U.S., Hong Kong, and China-listed consumer companies, including Coca-Cola, Monster Beverage, Nongfu Spring, Yili, Mengniu Dairy, and China Feihe; produced initiation reports, earnings updates, and industry deep dives.
- Built financial forecasts and DCF valuation models; evaluated growth drivers, channel strategies, competitive positioning, and key risks; and developed buy/sell recommendations.
- Delivered tailored market insights to institutional clients including J.P. Morgan, Citadel, and T. Rowe Price; presented investment ideas through roadshows and client meetings.
- Worked directly with CFOs and investor relations teams and facilitated investor-management meetings to deepen primary research and test investment assumptions.
- Built Python and SQL workflows for data extraction, cleaning, regression analysis, and chart generation, reducing recurring financial-data processing from approximately two hours to 10 minutes; customized open-source tools to analyze unstructured financial reports.

Guide Investment | Buy-Side Equity Research Analyst *Shanghai | Nov 2021 – Sep 2022*

- Researched Microsoft, Roche, leading Chinese dairy companies, and residential energy-storage company Pylon Technologies, assessing business evolution, product portfolios, governance, industry structure, and competitive dynamics.
- Compared operating models, product mix, supply-chain positioning, governance, and competitive intensity across companies and sectors.
- Synthesized company history, operating evidence, and industry structure into concise investment research and risk assessments.

Meituan | Product Manager, Community Group-Buying *Shanghai | Jul 2021 – Nov 2021*

- Analyzed customer-service and after-sales order data with Python and SQL to identify user pain points and evaluate business workflows.
- Translated findings into product requirements and coordinated implementation with engineering and operations teams.

SELECTED PROJECT

Jianwei Daily | Independent Developer *Sep 2026*

- Designed and launched a WeChat Mini Program providing daily macro and multi-asset research for individual investors across U.S., Hong Kong, and China equities and commodities.
- Built personalized information feeds, security-level historical archives, watchlists, search, and review workflows.
